

You Rise to the Challenge Every Day. We Exist to Support That Work.

Camps have faced tough challenges these past few years. But facing tough challenges is what camps are built to do. By sharing data, creating guidance and resources, and sharing best practices, we develop solutions that help camps thrive—allowing you to focus on providing powerful, transformative experiences for the campers you serve.

Our team includes former camp directors and camp staff. And every one of our insurance customers receives:

- Access to camp-specialized safety experts and resources
- Coverage that's uniquely tailored to the needs of camps
- 24/7 claims response, with in-person support for severe claims

Since we were founded, Redwoods has grown to insure 140 camps across the country. It's through our deep relationships we've built with camp staff that we are able to optimize our services to support the important work you do.

Coverages Available

General Liability • Property • Workers' Compensation • Directors & Officers • Auto • Excess

“I have never had another insurance company take such an interest in making sure that kids are safe, and staff are doing the right things. That matters to me in striving to do the most successful job we can. I continue to get so much from Redwoods coming out to visit and giving helpful, honest feedback that will make us better.”

—**Sheila Tallmon**, Executive Director, Camp Nor'wester
