

Insurance for Youth-Serving Community Organizations

GL – Auto – Property - Workers’ Comp - D&O - Cyber

Redwoods was founded with a very specific goal: using insurance as a tool to create safe communities for all. To do that, we work with local insurance agents to develop deep, authentic relationships with our shared customers.

Customer Segments and Appetite

YMCAs

- We are the largest insurer of YMCAs in the country.
- We actively seek YMCA customers with a culture of safety that includes our core safety requirements outlined below.

Boys & Girls Clubs

- Since 2015, we have been working closely with individual Clubs, and with Boys & Girls Clubs of America, to rethink what Club insurance can and should be.
- If you have a Boys & Girls Club of America charter, we will issue you a quote.

JCCs

- We are actively seeking submissions from Jewish Community Centers (JCCs) that provide community services such as aquatics, health, gym and cultural programming.
- We will consider larger Federations on a case-by-case basis.

Camps

- We work with mission-driven camps, and are actively seeking to grow our presence in this space. As part of that effort, we are developing innovative coverage options for camps exposed to wildfire or other property risk.
- We will consider any camp with a minimum annual revenue of \$500,000, a minimum of 5,000 camper days and a minimum of three years operation.

Core Safety Requirements for All Accounts

- Criminal background checks for all youth staff
- Lifeguards on duty at all swimming times, in all bodies of water
- On-site visits review
