

Insurance for Community Organizations

Redwoods was founded on the idea that insurance can and should be a powerful force for positive social change. Working closely with local brokers, we exclusively insure community organizations like YMCAs, JCCs, Boys & Girls Clubs and camps. This allows us to collect insurance data that informs us how people get hurt. We then use that data to develop practical tools and consulting services to improve safety. Here's how this helps you to serve your insureds:

- **We work closely with local brokers:** We believe that brokers play a critical role in serving our shared customers.
- **We offer competitive quotes:** Our underwriters are experts in youth-serving community organizations, meaning we can work with you to offer quotes that are right-sized and relevant for covering your insureds' real-world insurance needs.
- **We are there for your insureds:** Whether it's 24/7 crisis response, our on-site presence when a serious incident occurs, or our year-round risk consulting efforts, our goal is to work with you to support an organization's entire mission, especially through difficult times.

"As for my role as a broker, Redwoods allowed me to lead the initial interactions—which helped me show my client the value I'm bringing to the table. They were very inclusive of me and helped me portray my knowledge of the non-profit industry and what they do. It was a collaborative effort to show we can work together to meet their needs and their mission."

—**Josh Wall**, Walter Mortensen Insurance / INSURICA (BGC of Kern County)
