

We Are Here. For Good.

Redwoods was founded to prevent threats like child sexual abuse and drowning. We do that by insuring Clubs like yours and, even in difficult times, we are not going anywhere. Our approach is simple:

- **Direct access to an expert team:** You'll have direct access to a dedicated, safety-focused team that speaks your language.
- **Free, Club-focused resources:** From webinars to online trainings, we take lessons from our claims and turn them into resources specifically designed for Clubs and other youth-serving organizations.
- **Competitive pricing:** We work with your local broker to provide adequate coverage. As a specialty insurance provider for Clubs, we know your programs and are able to price competitively.
- **Communicable Disease Coverage:** The COVID-19 outbreak has revealed how disruptive disease outbreaks can be. That's why we do not exclude communicable diseases from our GL coverage.

“It's clear to me that everyone at Redwoods embraces the company's purpose. Mission is spoken and taught at every level, and it is embraced by every single employee.”

—**Jerome Levisy**, CEO, Boys & Girls Clubs of Durham and Orange Counties
