

With Us, You Can Expect More.

We're not a generalist insuring all social services. We specialize in just four youth-serving organizations: Boys & Girls Clubs, Camps, JOCs and YMCAs. And we're not a traditional carrier narrowly focused on profit. Rather, our goal is to work closely with you and your insured to create safe communities for all.

When you work with us, you get decades of experience relevant to your customer. You get passionate underwriters that deeply know their risk. And you get rates that are true to their exposure.

We offer more than the traditional insurance policy. And, because we can't do this alone, we'll ask for your engagement and support. In return, you'll get more passion, more service and more return on your investment. When you're ready to make a submission, we hope you choose more.

"From submission onwards, we realized that Redwoods had a very specific, more in-depth way of working. Redwoods allowed me to lead the initial interactions—which helped me show my client the value I'm bringing to the table as a broker." —**Josh Wall, Walter Mortensen Insurance / INSURIC**
