

# Insurance for Jewish Community Centers.

Redwoods was founded on the idea that insurance can and should be a powerful force for positive social change. Working exclusively with community organizations like JCCs, we collect insurance data that informs us how people get hurt. We then use that data to develop practical tools and consulting services to improve safety.

- **We work with any broker of your choice:** Redwoods is an insurance carrier and we work closely with your local broker/agent to offer a competitive quote that's tailored to meet your needs.
- **We are available 24/7:** When a crisis hits, we are there by your side—including, where necessary, flying someone out to be there in person and help your community heal.
- **We service your entire mission:** We're not just interested in safety. We're interested in getting to know every aspect of your programming, and in supporting your entire mission.

“Previously, the only time I ever dealt with my insurance company was when I had a claim. With Redwoods, on the other hand, I have a relationship with a risk consultant throughout the year. Not only do we make a plan for addressing safety issues, but we have regular check-ins throughout the year to assess progress.”

—**Michael Feinstein**, CEO, Bender JCC of Greater Washington
